Health, Safety & Environment

Volume 12

2001

Number 1/2

Articles

Daniel Barry, *Contrasting Treatments of Recall Bias in Two Epidemiological Settings*

The author contrasts the treatment of recall bias in the literature on induced abortions and breast cancer, and on environmental tobacco smoke and lung cancer.

1

Michael Siegrist, *Poorer European Countries are Less Concerned about Biotechnology than Richer Countries*

The author examines the relationship between GNP, media coverage, and public perceptions of the utility, risk, and acceptability of medical and food-related applications of biotechnology.

29

David M. Konisky, *Over a Decade of Comparative Risk Analysis: A Review of the Human Health Rankings*

The author reviews a method for undertaking a cross-project comparison of comparative risk analyses to understand which environmental problem areas have been cited most as often posing the severest risks.

41

Allan Mazur, *Looking Back at Fluoridation*

The author reviews the 50-year history of the debate over fluoridating drinking water as a public health measure.

59

Kathleen Ruroede, *Attitudes of Risk Management Professionals Toward Disclosure of Medical Mistakes*

The author reports on health care organization risk managers' attitudes toward disclosure of medical mistakes.

67

Sharon M. Friedman, *Risk Communication, the Hanford Thyroid Disease Study and Draft Reports*

The author reviews the release of the draft Hanford Thyroid Disease Study as a case study in risk communication problems arising from public disclosure of draft reports.

91

Patricia Ann Fleming, *Examining Recent Expert Elicitation Judgment Guidelines: Value Assumptions and the Prospects for Rationality*

The author examines the value assumptions in the U.S. Department of Energy and Nuclear Regulatory Commission guidance on the use of expert judgment relating to high level nuclear waste disposal site selection.

. 107

Comments

Benson Yang, *The Breast Implant Controversy: A Prism for Reform*

The author argues that regulatory blunders and the litigation explosion pertaining to breast implants highlight defects in U.S. administrative and tort law systems.

. 121

Karyn A. Doi, *America's Anti-Violence Campaign: The Use of Mediation to Reduce The Incidence of Workplace Violence*

The author recommends that companies incorporate a mediation program into their anti-violence plans.

. 133
